Cairo, EG | +201098123578

PHP Developer with experience building secure and scalable web applications using native PHP and Laravel. Skilled in API integration, backend optimization, and deploying applications on shared hosting and VPS environments, including cPanel/WHM.

## Work Experience

**Backend Developer** Oct 2025 - Nov 2025

*Egyptra | Remote*

responsible for building and maintaining backend services using PHP and Laravel. Contributed to core projects by optimizing database architecture, improving request performance by 20%, and enhancing overall system responsiveness and usability.

- Developed and maintained backend services using PHP and Laravel for production systems.
- Redesigned and optimized database architecture, achieving approximately a 20% improvement in request processing speed.
- Improved overall system responsiveness and stability through backend performance tuning.
- Contributed to delivering smoother, more intuitive user experiences by enhancing backend logic and data flow.

**Backend Developer** Dec 2023 - Sep 2025

*Linkysoft | Remote*

with extensive experience delivering scalable backend solutions using Laravel, native PHP, and CodeIgniter. Built and optimized vendor management systems, integrated RESTful APIs, improved data retrieval performance, and deployed secure applications in shared hosting and VPS environments.

- Designed and implemented scalable backend architectures to support growing business requirements.
- Optimized database queries and indexing, improving application performance and reliability.
- Collaborated with frontend teams to ensure seamless data integration and consistent system behavior.
- Implemented authentication, authorization, and validation mechanisms to enhance application security.

**Backend Developer** May 2024 - Aug 2024

*Semicolon | Remote*

Worked as a Backend Developer at Semicolon, utilizing PHP and MySQL to build and optimize backend features for dynamic web applications. Delivered high-performance solutions with an emphasis on reducing costs and improving efficiency.

- Developed backend features using PHP and MySQL for dynamic web applications, improving functionality and performance.
- Reduced project costs by 50% through the implementation of an innovative, cost-effective solution.
- Delivered high-quality code with exceptional speed and productivity, ensuring timely project completion and client satisfaction.

## Projects

### Retweet

- Crafted a versatile media downloader tool using Laravel, HTML, CSS, and JavaScript, enabling seamless video and image downloads via Instagram API integration.
- Ensured robust API connectivity and a responsive, user-friendly interface for efficient content saving.

### Fajr – Arabic Learning Platform

- Developed a dynamic e-learning platform with Laravel, integrating Stripe for secure payments and supporting distinct roles (Student, Teacher, Admin).
- Enabled offline class scheduling, book purchases, and tailored learning materials, delivering an engaging user experience with HTML, CSS, JavaScript, and jQuery.

### DoroosOnline

- Enhanced a CodeIgniter-based LMS with advanced features like announcement banners, multi-section displays, podcasts, Associations module, POS integration, and ChatGPT API support.
- Optimized functionality and performance using HTML, CSS, JavaScript, and jQuery for a scalable, user-focused solution.

## Core Skills

**Technical skills:** Native PHP development, Laravel, CodeIgniter, database design, MySQL, PHP, HTML, CSS, JavaScript, jQuery, AJAX, HTML5, CSS3, XML, cPanel/WHM deployment, responsive web design, mobile-first, Git, GitHub, version control, RESTful APIs, integration, file storage, Hetzner S3, AWS S3, AWS EC2, clean code, security best practices

**Soft Skills:** strong problem-solving, communication, teamwork, adaptability, time management, working under pressure, continuous improvement, Strong problem-solving and analytical thinking, Effective communication and collaboration, Ability to work under pressure and meet deadlines, Adaptability and quick learning of new technologies, Time management and task prioritization, Attention to detail and commitment to clean code, Teamwork and cross-functional collaboration, Continuous learning and self-improvement

## Education

**King Marriott Academy** Sep 2025 - Nov 2028

**Information systems** Information systems

Minors: Database Systems, Data Structures, Software Engineering Basics

## Languages

Arabic (Native), English (Good)
